

US Basketball Games will do our best to promote event safety by implementing the following:

A COVID Responsible Event -Safety First

#### Building Entry Procedure

All session participants whether player or spectator will be vetted the following way:

- Temperature will be taken before entry into gymnasium (If player or camper has temperature above 100.4 (or whatever the CDC deems a high temperature), then that player cannot enter gymnasium and a refund will be made available to the parent within 5-7 business days). This will be conducted with a thermal scanner as each person enters the building and allows for a non-evasive system which is highly accurate
- Qualifying questionnaire (Have you been affected by COVID, do you have symptoms)
- Lien waivers will be signed prior to event during registration process
- Each event staff member/director/coach will be vetted prior to entry into gymnasium
- Mask will be available for purchase at Check in gate
- Sanitization Station will include hand wipes, sanitization gels, etc.

#### Spectator Seating

- We will adhere to social distancing guidelines
- Bleacher seating will be marked
- If fans choose not to attend game(s), they can purchase games via Play Sight at LakePoint Sports Complex. Payment link will be sent to coaches for distribution.

### Players

- Players will be encouraged to bring hand sanitizer wipes or gel to camps
- Encouraged to wash hands with soap and hot water during every break
- There will not be any money changing hands at our event for concessions admission. All concession purchases and late sign ups must be completed on-line. System is currently being reviewed and under consideration by venue and US Basketball Games as an option
- Players cannot bring basketballs into the venue
- Players should bring their own source of water; do not use water fountains or team water bottles. Individual water bottles will be for sale at event concession areas
- There will be no handshake lines after games; remind players to wash their hands or use hand sanitizers frequently as possible

### Game Play

- All **Game balls** will be wiped down with germ sanitizing solutions prior to warmups
- Each bench chair will be sanitized prior to each game
- Bleachers and event chairs will be sanitized prior to each game
- Pre-determine seating and standing areas will be identified prior to the events start.
- Balls may only be used for game play and warm up. Balls will not be allowed to be dribbled or handled outside the court area. **NO DRIBBLING IN COMMON AREAS**

### Health Suggestions

Include the following vitamins in your daily routine;

Vitamins A, B6, C, D3, E and Zinc – these vitamins assist your body with its immune system and help thwart off diseases. We are not stating that the aforementioned will kill the Coronavirus, but it can help your body with its immune system.

Some program bullet point reminders:

- Ensure availability to handwashing, alcohol-based hand gel and hygiene facilities at MULTIPLE locations including all entrance points.
- Temperature scans at all entrance points
- Sharing of equipment should be prohibited, in particular ensuring that water bottles and cups are not shared
- Housekeeping frequently disinfecting high-volume touchpoints such as door handles, elevator buttons, common area furniture, etc.
- Safe utilization of closed containers for all disposable and reusable hygiene materials (tissue, towels, etc.)
- Designation of a member on staff to ensure that our facilities do or can comply with National recommendations.
- Provide first aid and medical services, including designated medical providers who are able to triage and refer suspected cases for COVID-19 testing at tournaments.
- Designation of an isolation room/space identified to hold any symptomatic person found at the venue while awaiting patient transfer to a medical facility. May need to designate a separate space for athletes/team staff and spectators.
- Display signs to inform spectators and support staff about ways in which they can prevent themselves from getting infected with COVID-19 and passing the virus to others.
- Determine how athletes/team staff/ spectators will be notified of a positive case of COVID-19
- Physically distancing would be a mandatory requirement

These are guidelines that we will adopt as we slowly resume our travel basketball season. Guidelines may be lifted at a future date as more virus-relates data is provided.

**We will adhere to all CDC guidelines**
